

# CERTIFICATE IN SUSTAINABILITY

**FORMAT: 100% ONLINE**  
**CREDIT HOURS: 12**  
**COST PER CREDIT: \$650**

**Now Eligible for Financial Aid!**

## Certificate in Sustainability

Sustainability is a problem-based, solution-oriented framework for creating a resilient civilization. Mitigation and adaptation to climate change is emphasized along with biodiversity conservation, resource conservation, and mitigation of pollution. Students enrolled within the certificate program should expect to explore, debate, and research possible sustainability solutions from a variety of viewpoints.

## Earn a Certificate

Unity College is known as a leader in sustainability and sustainability science. This certificate is a natural fit for individuals wanting post-baccalaureate experience and understanding of sustainability. Students can easily continue on to earn their master's.

## Courses

- SUST 505 Thinking in Systems
- SUST 510 Climate Dynamics
- SUST 515 Leading Sustainable Change
- SUST 520 Community Planning for Resiliency
