

# 2020-20201 HYBRID LEARNING CALENDAR

With eight terms per year, students can apply year-round and begin their program at any one of the start dates. Students should plan to complete about 30 credits per year in order to stay on-track for graduation progress, but students can choose which terms to enroll in during the year. Students can also take off a term or two and then continue their program without re-applying. Just one three-credit class is considered full time for financial aid. Students can take up to six credits a term. Students choose which terms to take off.
