Take control of your education using a combination of online and in-person classes, whichever best suits your needs!

8 START DATES
Eight start dates where you can move fluidly between online and in-person courses based on your individual preference and schedule.

STEP IN AND OUT
Step in and out of the program. Mirror the traditional residential college experience, or complete your degree in a shorter timeframe, it's up to you!

5 WEEK TERMS
Hybrid Learning students take a maximum of two courses per five-week term. Master course content and corresponding skills in concentrated courses.

CAREER READY
Rely on Hybrid Learning for career-relevant classes. Even in an era of uncertainty and disruption, if face-to-face classes are not an option, you’ll continue to have access to high-quality education at your convenience.

LIVE ON CAMPUS
You can opt to live on campus and enjoy the residential experience while taking online courses.

FINANCIAL AID
Students who take just one class (3 credits) per term can apply for financial aid. Our specialized recruiters guide students through the process.
A Premium Education
Develop the necessary knowledge and skills to succeed in the job market by engaging in meaningful, career-oriented environmental classes from a fully accredited institution.

An Education that’s Affordable
Benefit from high-quality education at affordable prices: $470 per credit hour for online and $550 per credit hour for in-person classes. With the flexible calendar, students can adjust their housing and dining plans based on their needs.

Connect with Unity
Join an active, close-knit campus, in-person or online. The Hybrid Learning student activity schedule offers opportunities for entertainment, personal growth, and socializing with your peers.

Invest in Your Future with Confidence
Unity College has an exemplary return on education: 96% of our graduates are employed full-time within six months of graduation. You can rely on our proven track record of success as you prepare for your environmental career.

A HIGH-QUALITY, DISRUPTION-RESISTANT EXPERIENCE

### For students with $0 expected family contribution, the financial aid package per 5-week term.

Conservation Law Enforcement

Conservation Law Enforcement prepares students with the skills and knowledge they need to succeed in careers dedicated to the conservation and protection of natural resources and the environment. If you want to be a game warden or park ranger, your journey starts here.

Captive Wildlife Care

This program is designed for students interested in careers related to the care and husbandry of wild species in captivity and education of the public concerning conservation issues. Target employers include zoos, aquariums, rehabilitation, and wildlife education facilities.

Wildlife and Fisheries Biology

The Wildlife & Fisheries Biology program immerses students into the depths of wildlife and fisheries science. Students will not only research the biology and habitats of our wild mammals, birds, and fish but also receive a solid background of biological and ecological knowledge for sustaining populations in our ever-changing environment. This flexible degree builds toward careers such as wildlife biologist, fisheries technician, or researcher.

Environmental Science

Students in the Environmental Science major will build knowledge and skills related to ecosystems, natural resources, human behavior, and social systems through a combination of active classroom and field experiences and case studies. Graduates can pursue careers such as sustainability specialists, alternative energy managers, or advance to graduate programs.

Environmental Studies

The Environmental Studies major combines humanistic perspectives with a sustainability science framework to prepare students to become skilled communicators and environmental leaders, and work in fields such as community planning and policy analysis.

You can learn more about the career options and opportunities for our graduates at unity.edu/career-search.
