## B.S. in Environmental Health and Safety

Protect the greater good and pursue a degree in something that matters. Work to reduce environmental contamination, protect workers from hazardous conditions, and promote the use of less energy. The B.S. in Environmental Health and Safety focuses on environmental responsibility and accountability and prepares students for a variety of OSHA certifications.

Students obtain skills in pollution prevention and control, solid and hazardous waste management, EHS regulatory interpretation and application, EHS problem solving, stakeholder engagement, project management, and written and oral communication. It prepares students for careers in manufacturing, natural resources, and scientific and technical consulting.

Careers following this degree will be enjoying a greater than average increase in demand over the next ten years, with 104,000 jobs expected by 2028 for Occupational Health and Safety Specialists.
