

Hybrid Learning

Train for a meaningful career addressing urgent environmental issues through a combination of online classes and optional in-person classes.

PREMIUM ENVIRONMENTAL
CAREER PREPARATION

ENVIRONMENTALLY-FOCUSED DEGREES AND CAREERS

Conservation Law Enforcement

Conservation Law Enforcement prepares students with the skills and knowledge they need to succeed in careers dedicated to the conservation and protection of natural resources and the environment. If you want to be a game warden or park ranger, your journey starts here.

Captive Wildlife Care

This program is designed for students interested in careers related to the care and husbandry of wild species in captivity and education of the public concerning conservation issues. Target employers include zoos, aquariums, rehabilitation, and wildlife education facilities.

Wildlife and Fisheries Biology

Students in Wildlife & Fisheries Biology will not only research the biology and habitats of our wild mammals, birds, and fish but also receive a solid background of biological and ecological knowledge for sustaining populations in our ever-changing environment. This flexible degree builds toward careers such as wildlife biologist, fisheries technician, or researcher.

Environmental Science

Students in the Environmental Science major will build knowledge and skills related to ecosystems, natural resources, human behavior, and social systems through a combination of active classroom and field experiences and case studies. Graduates can pursue careers such as sustainability specialists, alternative energy managers, or advance to graduate programs.

Environmental Studies

The Environmental Studies major combines humanistic perspectives with a sustainability science framework to prepare students to become skilled communicators and environmental leaders, and work in fields such as community planning and policy analysis.

JOB OUTCOMES BY DEGREE

Significant job growth is projected in the fields of environmental science and sustainability.

Conservation Law Enforcement

Game Warden, National Park Ranger, Marine Patrol Officer

96% of Unity's Conservation Law Enforcement students who responded to the Senior and/or Alumni Survey are employed in their area of study within six months of graduation.

Captive Wildlife Care

Zoologist, Aquarist, Naturalist, Wildlife Rehabilitator

"The captive program at Unity teaches you exactly what you're going to do. I knew what I was getting myself into and what I wanted."

- Chaz James '16, Little Rock Zoo

Wildlife and Fisheries Biology

Wildlife Biologist, Fisheries Manager, Wildlife Technician

WF BIO students experience fieldwork and undergraduate research, so you'll be prepared to start your career or continue on to graduate school.

Environmental Science
