

# B.S. ENVIRONMENTAL STUDIES

## Nationally Recognized Program

Environmental Studies at Unity College combines humanistic perspectives with a sustainability science framework to prepare students to become skilled communicators and environmental leaders. Students will critically analyze and create cultural products that reflect the reciprocal relationship between humans and the environment while strengthening their ability to articulate key questions, define problems, and enact change. Students will also develop a broad base of professional skills and have opportunities to integrate disciplines within the humanities, such as art, journalism, business, and history.

**94% of our graduates are employed full-time within six months of graduation.**

## Affordable and Flexible

Today, the Unity College Environmental Studies program offers students unparalleled affordability and flexibility through our immersive 5-week courses. Enjoy the flexibility of starting on your own schedule, setting your pace of study and managing your costs of attendance to suit your needs.
