

JOB-FOCUSED EDUCATION

Accredited | Affordable | Two-Week Terms

VETERINARY CARE & MANAGEMENT

Veterinary Care & Management degree prepares learners for various opportunities in the expanding veterinary health, service, and associated industries. Learners will be exposed to direct animal care, veterinary study, and a focused study of veterinary office management, micro & small business entrepreneurship, animal-related eco-tourism, and the surrounding regulatory landscape. Projections show growth in Veterinary care careers throughout New England, and this program aims to prepare learners to thrive in an evolving, innovative, and in-demand field. Our Veterinary Care & Management program culminates in an Associate of Applied Science degree.

HOW YOU WILL LEARN

We have identified the best features of in-person and virtual learning, brought them together, and created an innovative and flexible education designed for the modern learner. All courses run on a two-week term calendar where learners take one course at a time. Each class meets in person regularly with day, weekend, and evening options available. In addition, courses leverage HyFlex instruction to enhance classroom learning. Using this flexible approach, learners leverage tools such as discussion boards, academic support resources, videos, and project-based assignments to demonstrate their understanding of the content. Our facility in New Gloucester, Maine, is equipped with state-of-the-art classrooms deploying cutting-edge technology, laboratories, conference rooms, co-working/study spaces, and more to support and enhance teaching and learning.
